**Subject:** RE: 2019-2019 Colorado Emissions Review

Hi David and all,

Thank you for reviewing the 2017-2019 Point source emissions files for national risk analyses for the air toxics data update and for sending in your changes and comments.

We understand that you are working out an issue with Region 8 staff regarding a facility. We are standing by for an update.

We very much appreciate your work in helping us model the best estimates of air toxics emissions, and thank you for your continued review of the 2018-2019 emissions (comments due September 30).

The Air Toxics Data Update Team

Subject: Re: 2019-2019 Colorado Emissions Review

This revision contains the Division's data for Terumo BCT as requested by Kyle Olson and Kerry Hicks. Since the Division's inventory process assignments don't seem to directly correspond to the TRI data in the spreadsheet the Division's data was added after the TRI data.

dheers,  
dt
